**ARTICLE 39**  
**DRUG TESTING POLICY**

Section I. - Policy

It is the policy of this department that the critical mission of law enforcement justifies maintenance of a drug free work environment through the use of a reasonable employee drug-testing program.

The law enforcement profession has several uniquely compelling interests that justify the use of employee drug-testing. The public has a right to expect that those who are sworn to protect them are at all times both physically and mentally prepared to assume these duties. There is sufficient evidence to conclude that the use of controlled substances and other forms of drug abuse will seriously impair an employee's physical and mental health, and thus, their job performance.

Where law enforcement officers participate in illegal drug use and drug activity, the integrity of the law enforcement profession, and public confidence in it are destroyed. This confidence is further eroded by the potential for corruption created by drug use.

Therefore, in order to ensure the integrity of the department, and to preserve public trust and confidence in a fit and drug-free law enforcement profession, this department shall implement a drug-testing program to detect prohibited drug use by sworn employees.

Section 2. - *Statement*

Both the Town and the Union strongly favor a drug free work environment. To that end, an Employee Assistance Program has been established for all employees which will provide counseling, evaluations, and treatment referrals, if needed, and will deal with such problem areas as family, financial, legal, emotional and substance abuse.

Section 3. - *Definitions*

- A. **Sworn Employee** - Those employees who have been formally vested with full law enforcement powers and authority.
- B. **Supervisor** - Those sworn employees assigned to a position having day-to-day responsibility for supervising subordinates, or who are responsible for commanding a work element.

**Drug Test** - The compulsory production and submission of urine by an employee in accordance with departmental procedures, for chemical analysis to detect prohibited drug usage.

- D. **Reasonable Suspicion** - That quantity of proof or evidence that is more than a hunch, but less than probable cause. Reasonable suspicion must be based on specific, objective facts and any rationally derived inferences from those facts about the conduct of an individual that would lead the reasonable person to suspect that the individual is or has been using illegal drugs while on or off-duty.
- E. **Probationary Employee** - For the purposes of this policy only, a probationary employee shall be considered to be any person who is conditionally employed with the department as a law enforcement officer.

**Section 4.** - *Prohibited Activity*

The following rules shall apply to all applicants, probationary and sworn employees, while on and off duty:

1. No employee shall illegally possess any controlled substance.
2. No employee shall ingest any controlled or other dangerous substance, unless as prescribed by a licensed medical practitioner.
  - a. The employee may be temporarily reassigned to other duties, where appropriate.
3. Any employee who unintentionally ingests, or is made to ingest a controlled substance shall immediately report the incident to their supervisor so that appropriate medical steps may be taken to ensure the officer's health and safety.
4. Any employee having a reasonable basis to believe that another employee is illegally using, or in possession of any controlled substance shall immediately report the facts and circumstances to any supervisor.
5. Discipline of sworn employees for violation of this policy shall be in accordance with the due process rights provided in the department's discipline and grievance procedures.

**Section 5.** - *Applicant Drug-Testing:*

1. Applicants for the position of sworn law enforcement officer shall be required to take a drug test as a condition of employment during a pre-employment medical examination.
2. Applicants shall be disqualified from further consideration for employment under the following circumstances:
  - a. Refusal to submit to a required drug-test; or
  - b. A confirmed positive drug-test; indicating drug use prohibited by this policy.

**Section 6.** — **Probationary Employee Drug-Testing:**

1. All probationary employees shall be required as a condition of employment to participate in any unannounced mass/mandatory drug tests scheduled for the probationary period. The frequency and timing of such tests shall be determined by the chief or his/her designee.

2. In addition, where the probationary employee has a past history of drug use, he/she shall be required to submit to random-testing until the probationary period is successfully completed. The frequency and timing of such testing shall be determined by the chief or his/her designee.

Section 7. — *Employee Drug Testing:*

Sworn officers will be required to take drug tests as a condition of continued employment in order to ascertain prohibited drug use, as provided below:

1. A drug test will be administered as part of any regular physical examination, if any, as required by this department and if mutually agreed upon by the Union and the Town.
2. A drug test shall be considered as a condition of application to the specialized units within the department, and shall be administered as part of the required physical examination, if any, for that position.
3. An employee shall be required to undergo drug and/or alcohol testing if the supervisor believes there is probable cause that the employee may be in violation of Section 4, 1 and 2 of this Article which must be supported by a signed affidavit and a signed affidavit from another supervisor attesting to their beliefs. The Testing will then be ordered by an officer of the rank of Captain or higher, only. Whenever an employee is required to undergo testing the Union President, or member of the executive board may, if requested, accompany the employee.
4. Should the employee test positive for legal substances (Le., alcohol or prescribed medication) the employee shall be required to be evaluated by an Employee Assistance Program counselor and successfully complete the prescribed course of treatment, if needed and as determined by the Employee Assistance Program counselor or prescribing physician. Any further disciplinary action will be held in abeyance pending the counselor's recommendations. If a treatment program is required, the employee shall be required to complete treatment and attend support group meetings at least once per week for 52 weeks that must be verified in writing. The employee will also be subject to random testing for one (1) year. Failure to comply with any of the above conditions, or testing positive a second time, during the first year of after care, shall result in termination.
5. Should an employee test positive for illegal substances, he shall be terminated.
6. An employee who has previously completed a treatment program as defined in 4 above and tests positive for the same legal substances, a second time within a three- (3) year period while on duty, shall be terminated. EXCEPTION: when that legal substance is taken in the prescribed dosage per prescribing physician in accordance with a medical treatment plan. A statement from the prescribing physician attesting to the medical necessity of the drug will negate termination.

Self-referrals to the Employee Assistance Program shall not count against the employee. *Refusal to submit to testing shall result in termination.*

7. All testing shall be conducted in a manner that will ensure that the chain of custody has been maintained. (Reference Section 8, 6 and 7, and Section 10, 1 and 2) All initial positive tests shall be verified by a confirming second test. There shall also be a split sample available for further verification by another laboratory under the chain of custody. All tests must be positive for a finding of a "positive". Any finding of a "negative", during any of the process, shall clear the employee.
8. Any disciplinary action taken under this Article, including termination shall be in accordance with Article 18, providing, that due process is adhered to and all tests indicate "positive" findings.

Section 8. — *Drug-Testing Procedures:*

1. The testing procedures and safeguards provided in this policy to ensure the integrity of department drug testing shall be adhered to by any personnel administering drug tests.
2. Personnel authorized to administer drug tests shall require positive identification from each employee to be tested before they enter the testing area.
3. A pre-test interview shall be conducted by testing personnel with each employee in order to ascertain and document the recent use of any prescription or non-prescription drugs, or any indirect exposure to drugs that may result in a false positive test result.
4. The bathroom facility of the testing area shall be private and secure.
  - a. Authorized testing personnel and a Union Official, if requested, shall search the facility before an employee enters it to produce a urine sample, and document that it is free of any foreign substances.
  - b. The employee to be tested shall disrobe before entering the bathroom facility, and be provided a light robe.
  - c. Testing personnel of the same sex as the employee shall observe production of the urine sample.
5. Where the employee appears unable, or unwilling to give a specimen at the time of the test, testing personnel shall document the circumstances on the drug-test report form. The employee shall be permitted no more than eight hours to give a sample, during which time he/she shall remain in the testing area, under observation. Reasonable amounts of water may be given to the employee to

encourage urination. Failure to submit a sample shall be considered a refusal to submit to a drug-test.

6. Employees shall have the right to request that their urine sample be split and stored in case of legal disputes. The urine samples must be provided at the same time, and marked and placed in identical specimen containers by authorized testing personnel. One sample shall be submitted for immediate drug testing. The other sample shall remain at the facility in frozen storage. This sample shall be made available to the employee or his attorney should the original sample result in a legal dispute or the chain of custody is broken.
7. Specimen samples shall be sealed, labeled and checked against the identity of the employee to ensure the results match the tested specimen. Samples shall be stored in a secured and refrigerated atmosphere until tested or delivered to the testing lab representative.
8. Whenever there is a reason to believe that the employee may have altered or substituted the specimen to be provided, a second specimen shall be obtained immediately, under direct observation of the testing personnel

Section 9. — *Drug-Testing Methodology:*

1. The testing or processing phase shall consist of a two-step procedure:
  - a. Initial screening test, and
  - b. Confirmation test.
2. The urine sample is first tested using the initial drug screening procedure. An initial positive test result will not be considered conclusive; rather, it will be classified as "confirmation pending." Notification of test results to the supervisor or other departmental designee shall be held until the confirmation test results are obtained.
3. A specimen-testing positive will undergo an additional confirmatory test. The confirmation procedure shall be technologically different and more sensitive than the initial screening test.
4. The drug screening tests selected shall be capable of identifying marijuana, cocaine, and every major drug of abuse including heroin, amphetamine and barbiturates. Personnel utilized for testing will be certified as qualified to collect urine samples or adequately trained in collection procedures.
5. Concentrations of a drug at or above the following levels shall be considered a positive test result when using the initial immunoassay drug screening test:

	Initial Test Level (Ng/ml)
Marijuana metabolite	100
Cocaine metabolite	300
Opiate metabolites	300 <sup>1</sup>
Phencyclidine	25

Cocaine metabolite	150 <sup>3</sup>

7. Employees having negative drug test results shall receive a memorandum stating that no illegal drugs were found. If the employee requests such, a copy of the letter will be placed in the employee's personnel file.
8. Any employee who breaches the confidentiality of testing information shall be subject to discipline.

Section 10. - Chain of Evidence-Storage:

1. Each step in the collecting and processing of the urine specimens shall be documented to establish procedural integrity and the chain of custody.
2. Where a positive result is confirmed, urine specimens shall be maintained in secured, refrigerated storage for an indefinite period.

Section 11. -Drug-Test Results:

1. All records pertaining to department required drug tests shall remain confidential, and shall not be provided to other employers or agencies without the written permission of the person whose records are sought.
